### Helpful Hints:

The weather varies in Mexico throughout the year; please check the weather in Baja California, MX before arriving so that you pack correctly. You also may want to have warmer clothing for the evenings, as it will likely cool off quite a bit. It is usually a good idea to have one pair of shoes or boots to wear at the worksite and a separate pair to wear around camp. Just remember we'll be working three days and spend two nights in camp.

***Please be prepared to carry everything you bring. You will need to carry all of your personal items back across the border on Sunday afternoon.***
